Commenting on the performance, **Founder and Managing Director, Mr. Dinesh Shahra** said, *"Ruchi Soya has come through testing times with visible signs of recovery now appearing, powered largely by our branded sales business. This is apparent in our results which reflect the strong foundation of our core business. We are confident that the measures being taken in the areas of cost control and capacity optimisation will bear fruit in the coming quarters."*

Our competitive position in the edible oil business remains firm as we prepare for the launch of GST. GST will be beneficial to organized players and allow us to access a pan-Indian market with process efficiencies that will reflect in reduced operational costs. GST will also add muscle to our branded sales which should show enhanced performance in the coming quarters.

We continue to engage with banks and financial institutions for resolution of all issues. We are hopeful for a solution in the near future that will remove roadblocks to our fast track growth and allow us to create value for our shareholders by driving sustainable, profitable sales growth. Edible oil consumption, especially packaged and branded oil, is growing giving our business strong growth potential. Our focus shall be to maintain our leadership position and surpass industry growth supported by our ready infrastructure"
